* Dial diameter 43mm. All other indicators dial diameter 57mm.

3600 Series Electronic Indicators have simple, powerful, easy to use functions, all at an attractive price. Versions are available for inch/metric and metric only.

3600 SERIES - ELECTRONIC DIGITAL INDICATORS

- Zero the reading at any position.
- Instant inch/mm conversion.
- 9.525mm / 3/8" diameter stem.

Cat No.	EDP No	Range	Reading
3600-5	68813	12.5mm/0.5"	0.01mm/0.0005"
3600M-5	68918	12.5mm	0.01mm

After inserting work between the measuring contacts, releasing the lever will cause the spindle to contact the work, giving an accurate size reading because measuring pressure is independent of the user. Indicators have jewel bearings and continuous dials.

3015 SERIES - THICKNESS GAUGE
