Characteristics

- Rigid Bow in magnesium
- Triggered Variable Speed
- Suitable for cutting structural shapes, thin wall tubes and low carbon ferrous or nonferrous material
- Manufacture according to CE Standard

SUPER LIGHTWEIGHT!

Portable Machine

S1010

Ultra light and compact, this machine can be lifted to be taken anywhere. Besides it, the bandsaw blades can be replaced easily, because they are sold in individual packs, welded in the right dimension for the machine.

Specifications

DESCRIPTION	CODE
220V	S1010-F1
110V	S1010-B1
